

# MYOB Advanced Business

## Sophisticated tools that growing businesses need today, to grow tomorrow.

MYOB Advanced is the new cloud-based Enterprise Resource Planning business management software transforming the way larger Australian businesses work.

Enterprise Resource Planning (ERP) software is designed to take care of everything you need both now and in the future, so you don't get stuck with systems that stop your growth. Inventory management, streamlined sales and purchasing, accounting and more – all in a scalable platform.

MYOB Advanced Business provides a customised, scalable, cloud-based platform at a convenient, monthly price that eliminates the need for ongoing hardware costs. Experience a fully featured business management system that covers your entire business operations, from administration to warehousing and everything in between.

Every area of your business will benefit from MYOB Advanced Business, be it reduced administration time, greater stock control or real time management reports - the gains are considerable and extensive.

### Harness the power of MYOB Advanced:

- + Using the organisational workflow engine - define actions and approval request
- + Send email notifications to users, customers and suppliers when certain conditions are satisfied.
- + Customise screen views to match your business process – add, remove, reposition or make fields mandatory.
- + Use interactive dashboards and a full content-managed Wiki to quickly provide users with relevant business information.

### Straightforward monthly pricing

Now you can transition to a sophisticated, functionally rich system for your business without a large upfront investment. MYOB Advanced is available for a convenient monthly subscription payment. Straight forward pricing options allow you to better plan and manage your business expenses throughout the year.

### MYOB Advanced features:

- + Easy financial management and GL function
- + Extensive inventory and distribution capabilities
- + Comprehensive management dashboards
- + Customer relationship management
- + Integrated project accounting functionality
- + Time sheets and expenses
- + Multiple locations/divisions/branches
- + Consolidation of financial transactions for all entities
- + Customisable accounting process flows and checklists

### Flexible enough to grow as you do

As your business grows, so does its complexity and the need to invest in more capable business management software. With Advanced you can change your subscription plan to best suit your changing business needs.

### Making life easier for larger businesses

The MYOB Advanced suite was designed to meet the cloud computing needs of a growing business and has already been adopted by Australia's leading businesses who are now enjoying the benefits of greater flexibility.

### Ready to take the next step?

Developed with integration in mind, MYOB Advanced can support growth as your business continues to evolve.
